Proposition: Electric vehicles are good for society.

Decision 1: Round Winner

In my opinion this debate was won by: (Circle one)		
Pro	Double Loss	Con

Important Reminders:

1. Judge the round based solely upon the issues discussed, setting aside your personal biases and opinions—Pro must convince you the proposition should be adopted, Con that it should be rejected.
2. Judges should not independently fact-check the debate.
3. Debaters may not introduce new arguments during rebuttal speeches, but may include new evidence, examples, analysis, and analogies offered to support previously introduced lines of argumentation.
4. Evidence need not be limited to hard facts and statistics—sound logic, historical examples, and illustrative stories are also acceptable support.

Reason For Decision: *On the back of the ballot, please provide detailed justification referring to central issues presented in the round, for debaters and their coaches.*
